Sir or Madam:

**PETITION TO WITHDRAW ERRONEOUS NOTICE OF INCOMPLETE
NONPROVISIONAL APPLICATION AND REQUEST FOR FILING DATE**

The above-identified divisional application was received by the Patent Office on March 08, 2001 and was initially granted a filing date of March 08, 2001 and assigned Application No. 09/801,558 per a Filing Date Notice dated April 19, 2001 (copy attached as Attachment A). The April 19, 2001 Filing Date Notice was withdrawn by a Withdrawal Notice dated January 22, 2002 (copy attached as Attachment B), and a Notice of Incomplete Nonprovisional Application was issued dated January 22, 2002 (copy attached as Attachment C). The Notice of Incomplete Nonprovisional Application states that the application was incorrectly deposited without drawings. Applicants hereby submit that drawings were not required to receive a filing date for the divisional

application at the time of its deposit, and therefore the Notice of Incomplete Nonprovisional Application was issued in error and should be withdrawn.

Applicants respectfully draw attention to MPEP 601.01(f), which indicates that for an application containing at least one process or method claim, drawings are not necessary for an understanding of the invention under 35 U.S.C. § 113 (first sentence). Copies of the specification and claims of the divisional application as filed are included herewith (Attachment D), and several process claims were present upon filing, for example claims 24-40. Such process claims provide sufficient explanation for an understanding of the invention by laying out the steps of the invention itself. Thus, in accordance with MPEP 601.01(f), drawings are not necessary for an understanding of the invention.

In view of the foregoing, Applicants submit that the Notice of Incomplete Nonprovisional Application was made in error and that the divisional application is entitled to receive a filing date. Accordingly, Applicants request that the Notice of Incomplete Nonprovisional Application be withdrawn and that the above-identified application be accorded a filing date of March 8, 2001.

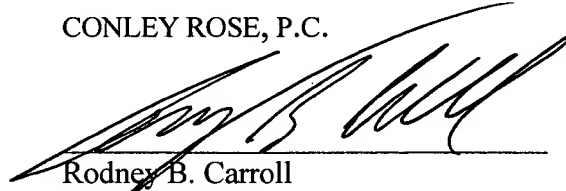

While not expressly required, Applicants further submit that the delay in filing this petition was made inadvertently, unintentionally, and without any deceptive intent. Following the corporate transaction that formed the corporation having rights in the present application (i.e., Chevron Phillips Chemical Company, LP), there was a complete turnover of in-house patent counsel, along with several moves and/or changes of address. Thus, it is believed that the Notice of Incomplete Nonprovisional Application was "lost in the shuffle" during this transitional period. In an effort to identify any problems that may

have arisen as a result of this transitional period, in-house staff recently completed a review of all pending applications, and the Notice of Incomplete Nonprovisional Application was rediscovered during this review. The entire delay in filing the required reply from the due date of the reply until the filing of a grantable petition was unintentional.

The Commissioner is hereby authorized to charge to any fee associated with this petition to Deposit Account 50-1515. However, Applicants hereby request a refund of the petition fee because the application is entitled to a filing date.

Respectfully submitted,

CONLEY ROSE, P.C.

NOTICE OF INCOMPLETE NONPROVISIONAL APPLICATION

FILED UNDER 37 CFR 1.53(b)

A filing date has NOT been accorded to the above-identified application papers for the reason(s) indicated below.

All of the items noted below and a newly executed oath or declaration covering the items must be submitted within **TWO MONTHS** of the date of this Notice, unless otherwise indicated, or proceedings on the application will be terminated (37 CFR 1.53(e)).

The filing date will be the date of receipt of all items required below, unless otherwise indicated. Any assertions that the item(s) required below were submitted, or are not necessary for a filing date, must be by way of petition directed to the attention of the Office of Petitions accompanied by the \$130.00 petition fee (37 CFR 1.17(h)). If the petition states that the application is entitled to a filing date, a request for a refund of the petition fee may be included in the petition.

- The application was deposited without drawings. 35 U.S.C. 113 (first sentence) requires a drawing "where necessary for the understanding of the subject matter sought to be patented." *Applicant should reconsider whether the drawings are necessary under 35 U.S.C. 113 (first sentence).*

*A copy of this notice **MUST** be returned with the reply.*

**LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15**

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 36 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15 (b).

PLEASE NOTE the following information about the Filing Receipt:

- The articles such as "a," "an" and "the" are not included as the first words in the title of an application. They are considered to be unnecessary to the understanding of the title.
- The words "new," "improved," "improvements in" or "relating to" are not included as first words in the title of an application because a patent application, by nature, is a new idea or improvement.
- The title may be truncated if it consists of more than 600 characters (letters and spaces combined).
- The docket number allows a maximum of 25 characters.
- If your application was submitted under 37 CFR 1.10, your filing date should be the "date in" found on the Express Mail label. If there is a discrepancy, you should submit a request for a corrected Filing Receipt along with a copy of the Express Mail label showing the "date in."
- The title is recorded in sentence case.

Any corrections that may need to be done to your Filing Receipt should be directed to:
